Accredited Medical Cannabidiol CMEs Available for Iowa's Healthcare Practitioners

This email is a notification of the availability of accredited CMEs on medical cannabidiol for Iowa's healthcare practitioners. These courses introduce healthcare practitioners to the endocannabinoid system and its interaction with the components of the cannabis plant, therapeutic use, drug metabolism, physiologic and cognitive effects, potential risks, and drug interactions. Legal and medical considerations associated with certifying a patient for the use of medical cannabidiol products in Iowa are discussed as well.

Please visit the links below for additional information:
